Subject: Proposed
Expansion in Glen Abbey

Dear Mr Elgar:

RE: Proposed Sewage Treatment Plant Expansion in Glen Abbey Area

My wife and I -- and everyone in the neighbourhood -- are in full support of you. Furthermore, we support any initiatives to prevent any further expansion of any sort of the Sewage Treatment Plant in our residential area. It should never have been located here in the first place, so close to a growing community, let alone expanded !!!

Although we cannot make the meeting on Jan 29 due to extremely busy schedules (like many of the people in our neighbourhood) that does not mean we are any less supportive -- please pass this message along! In fact we are all working hard to support this community and to pay our high taxes.

It is absolutely ridiculous to locate a sewage plant so close to a residential housing area - particularly where we have so many undeveloped areas within the North Oakville, Milton and Halton Hills 401 Corridor to choose from ! It is even more thoughtless of the Region to even consider expanding the existing plant !!

It is obvious to even a casual observer that this MUST BE STOPPED and that an alternate location MUST be chosen that is not near a large and growing residential community like Glen Abbey. This is clearly UNACCEPTABLE. A sewage plant is not the "quality of life" we want to experience in Oakville.

What can we do to stop this? How do we get the attention of those responsible for such an outrageously thoughtless decision?

Thank you.

Nick and Eva Glas
1344 Tinsmith Lane, Oakville

PS -- I have been an Oakville resident since 1987 and my wife since 1973.
Our three children were born here. We plan to stay, and want to keep Oakville worth staying in.
