

Sewage Treatment Plant

I have read with amazement the information from Mr. Elgar relative to the expansion of the Sewage Treatment plant.

My residence is within 5 - 7 km of this plant and I am quite concerned about the effect this plant expansion will have on the air quality in my area and ultimately my property value. To-date I have not experienced problems but with a potential expansion of 772 % it is quite conceivable that I will in the future.

If Local and Regional government are to act responsibly in the best interest of the resident of Oakville and Halton Region, there are many studies required before any decisions can be made.

Home Depot was denied permission to build on the North Service road because of the effect it would have on the area. Surely this issue far exceeds the Home Depot issue.

Is there not a taxpayer mailing list which could be used to inform the public in a more formal manner ?
