

Dear our Regional Chair,

Thanks for your time and your response to my concern regarding the Mid Halton Plant, I am assuring you that my concern are shared with 20,000 residents of Glen Abbey

Unfortunately, you did not attend the two public meetings and you did not see and hear the residents' outrage.

It will be a great opportunity for us if you chair a public meeting with the residents of Glen Abbey to discuss this issue and hear the concern of the 20,000 residents, and I am sure that you will enjoy the meeting and you will know more facts about this Mid Halton Plant

As you know that the construction for this project will start in year 2006, and 60 days extension for the deadline after February 07, 2003 will have NO impact on the project schedule.

I hope that on February 12, 2003 the 20,000 voices will convince you to extend the deadline.

Magdy Sidhom, P.Eng.
GARA Director
